FOOD PRODUCTS, INC.

*Finest Quality
Dried fruits*

Founded in 1989, **M.Lhuillier Food Products Inc.**, endeavors to become one of the major players in the mango processing industry. Since the beginning of the company until today, M. Lhuillier Food Products Inc. invokes high quality and safety standards to cater to the discriminating taste and preference of its domestic and international markets. Through the years, it has steadily acquired extensive experience and expertise in the industry.

Considered its best assets are its competent, experienced, innovative and well-trained Quality Control (QC) and Research and Development (R&D) Team. Together they work, to further hasten the company's growth. They are committed to surpass customer's expectations through premium quality of product and efficient customer service. M.Lhuillier Food Products Inc., uses state of the art drying technology, thus achieving the privilege of being regarded as one of the major dried fruit & fruit beverage processor in the Philippines.

Consistent with the company's thrust towards product diversification, the company has expanded into the development of other processed fruit products. These products undergo stringent quality control test starting from the selection of raw materials to preparation, processing and packaging.

Proud of being internationally recognized as one of the major fruit processing companies, M.Lhuillier Food Products Inc., is focused to incorporate the diverse international standards to significantly step up its operation. Through the years, the company strives to live to the following ideals:

- **Consistent and reliable product quality & safety**
- **Improving efficiency and productivity**
- **Competitive pricing of quality products**
- **Innovative and customer oriented marketing strategies**
- **Providing customer satisfaction**

Committed to safety, quality and marketability, **M.Lhuillier Food Products Inc.** provides added assistance to our valued patrons:

- **Custom-formulation of products** – our innovative R&D team will evaluate & formulate the customers preferred product profile and render technical assistance.
- **Facilitate in the design of packaging materials** – the company will provide assistance in drafting the packaging design preferred by its clients, as well as give reference to local packaging manufacturers.
- **Private labeling** – the company will accept the use of its customers own packaging material, brand name or label, and preferred packaging size.

With the technological expertise and experience, these ideals and capabilities becomes our way of life.
